

FAA Safety Team, EA-63 FSDO presents:

Preparing For The Unexpected: 'Do The Right Thing'

All too often pilots will act impulsively when faced with an unexpected event, and sometimes their "startle response" will weld the final link in the chain, leading to a fatal accident. During this presentation, Doug Stewart will present a variety of scenarios to help you prepare for the unexpected. He will discuss: how to counter the "startle response"; the proper thing to do if you have an inadvertent IMC encounter; how "threat and error management" can make you a safer pilot; the proper response to engine failures at any time from takeoff to landing; and how to do the right thing when the unexpected happens to you. Be sure to join us for a Cookout at 6:00 PM, sponsored by Fitchburg Pilots Association. Click on the link below and register TODAY.

Directions: Take the first right after entering the airport; follow the road through the gate to the end. See map link at faasafety.gov.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
